Social Distancing Protocols for Doubles/Triples Play:

- **Players shall maintain social distancing between all four/six players at all times.**
- The vacant pistes adjacent to the “playing” piste shall be used by each team when the other team is playing. The teams shall decide before play which vacant piste each team will use. For play on Pistes 13 & 16, the centre pathway and the shooting mat shall be deemed to be a vacant piste.
- Team A is the team that won the toss. Team B shall “retire” to its chosen vacant piste maintaining social distancing between each other. Team A can occupy the playing piste and its own vacant piste again maintain social distancing. Play commences in the normal manner.
- At the completion of the first end, each player from Team A should, in turn, retrieve their boules and jack before “retiring” to Team A’s vacant piste. Each player from Team B should then, in turn retrieve their boules, and, if it is still Team A to play, “retire to its vacant piste. If Team B is to play, then Team A should remain on its vacant piste.
- This pattern is repeated for each end with the team to whom the jack belongs being the first to retrieve their boules.
- In no circumstances should players from both teams be on the playing piste at the same time. This includes when measuring, or “viewing” to establish the position of the boules, is taking place.
